

Donation Policy

One Nation understands the importance of your donation, the responsibility and accountability it brings. One Nation prides itself in being completely transparent and aims to provide you feedback once the project you have donated for has been completed. Your donations will be used at the discretion of the Trustees within One Nation charitable objectives.

- When donating via the website or via bank transfer, please indicate the charitable aim(s) you wish your donation to be applied to, we treat these donations as restricted funds. If any funds are not referenced, Trustees may use these donations for any projects at their discretion.
- If we collect insufficient funds to complete the project you have donated towards. Trustees will use their discretion to move additional funds from General Funds to complete the project.
- If the charitable need for which we have collected for no longer exists or has been completed, then Trustees will use their discretion to ascertain the intention of the donors and any surplus funds will be allocated towards other similar projects.
- We take donations by Islamic Categories, for example Fidyah, Kaffarah, Zakat, these are restricted by Shariah Criteria, in which the trustees will select the country based on overall considerations, if country has not been specified when donating.

100% Donations Policy

(Excluding Gift Aid and specified donations for administration)

All the charity's administrative costs are covered by:

- Donations specified for administration. One Nation has a separate account for its administration fund to ensure our 100% donations policy is maintained.
- Tax reclaimed from your donation (where specified) from the UK government's Gift Aid scheme. This allows taxpayers to increase the value of their donation by 25%. This additional money is allocated to the charity's administration fund.
